BOSSAIR 185G+ PTO Drive

Underdeck Rotary Screw Air Compressor/Generator/Hydraulics

The BOSSAIR 185G+ is a revolutionary 3-in-1 package that includes a constant 85 or 185 CFM output rotary screw underdeck air compressor, 6.5 or 10kW A/C generator, and an optional 10 GPM hydraulic pump operated of a single power take-off (PTO) opening.

The BOSSAIR 185G+ uses no belts, but a direct gearbox drive. It has a dual input shaft allowing flexibility for either clockwise or counter-clockwise rotating PTOs with one compressor package.

The BOSSAIR 185G+ is the answer to driving all your equipment needs in one flexible and simple gearbox design..

- **Frees up the tow hitch.**
- **Takes up no bed space** - BOSSAIR PTO air compressor/Generator/Hydraulic systems are mounted under deck.
- **Fewer parts** - Compared to its towable or cross-mount counterparts.
- **Only one engine to maintain** - Simplifies preventive maintenance.
- **Cost efficient** - No need for additional licensing fees or insurance.
