engineered **AIR/POWER** systems

# the Revolt | a Continuous 6.0kW Stationary Power Supply

## FEATURES

The **BOSS® REVOLT** is a revolutionary design for the **FORD® Transit** work truck vehicles. The Revolt takes advantage of all the things you like about your Transit and now allows you to produce power in a stationary mode for you to perform the work you need to do. No batteries or engines to maintain. Simply park and engage the power switch like you would with any other PTO type of application and your off to work!

### 6.0kW of AC power when you need it!

This system consists of a custom built alternator powered through a patent pending high performance inverter and then distributed through the **BOSS Revolt 3-phase Power Panel**. The power distribution panel consists of a 20 amp/240v twist connection, a 30 amp/120v twist connection and a 20 amp 115v outlet. Other configurations available.

Simple, Effective, and Revolutionary!

## FEATURES

- Takes up no cargo space
- Ease of integration and operation
- Flexible power output
- Ease of operation
- Patent pending design

## BENEFITS

- No additional batteries or engines required
- Ideal for power equipment
- Optional air compressor both piston and rotary screw up to 20cfm
- Optional 160 AMP Welder

## IDEAL APPLICATIONS

- Service trucks
- Construction service
- Utility service vehicles
- Food Trucks
- Telecom/Fiber optics
- Film-Set Vehicles incl. SNG (satellite news gathering)
- Military applications
- Promotional vehicles
- Sewer camera inspection vehicles

### Available for:

2013-2019 FORD Transit with 3.7L Ti-VCT

2020+ FORD Transit with 3.5L PFDI

2020+ FORD Transit with 3.5L ECO Boost\*

\* N/A with Ambulance Prep Package (Dual Alternator)

## PRODUCT OPTIONS

Along with the **BOSS® REVOLT**, we have introduced tool options to help you on the job. All of these tools are designed specifically for the REVOLT system and will work perfect for your application!

### The BOSS ARC 160 Welder.

This compact design and ease of portability or storage, utilizes a 120A @ 100% DC current, which will result in an amazing weld. The BOSS ARC 160 Features an adjustable arc current for improving the arc-starting function. Great for welding with different kinds of acid or basic electrode.

### Rotary Screw and Piston Air Compressor Options.

BOSS offers both a rotary screw and piston air compressor options for your application.

- **BOSS E-RS11:** This all new 60Hz electric rotary screw air compressor produces 11CFM @ 145PSI continuously.
- **BOSS E-P20:** This all new 60Hz electric piston air compressor produces 20CFM @ 145PSI intermittently.
